Description:

This stuccoed frame foursquare duplex dates from the early 20th century. It is typical of its style with a hipped roof, hip roofed dormer and an across-the-front porch. Windows have single pane sash and the two entrances are in the central bays. The spacing between the windows is irregular which is unusual for foursquares.

The 1877 Atlas map indicates that a Mrs. Shanaberger had a house on this site at that time. It is possible that the present building is a reworking of some older structure. It represents some of the more "recent" infill on Baltimore Street.
